

**Tents and Facilities  
Frequently Asked Questions  
Camp Daniel Boone**

- 1. How is CDB organized for campsites?**
  - a. CDB has 22 campsites that vary in size. The smallest campsite holds 18 and the largest holds 120.
- 2. How big are the tents and cabins?**
  - a. Tents are on platforms and hold two cots inside.
  - b. Adirondacks hold two sets of bunk beds for a total of 4 people. Mats are provided in summer only.
- 3. Do all campsites have both Tents and Adirondacks?**
  - a. No. 9 of the campsites are tent only. The rest are a combination of tents and adirondacks.
- 4. How does COVID affect the sleeping arrangements?**
  - a. Campers will sleep Head to Toe, meaning heads at opposite ends of the cots/bunks.
- 5. Can we bring our own tents or hammocks?**
  - a. Yes. Hammocks cannot be placed more than 3 ft above the ground and there is NO double stacking. DO NOT hang a hammock inside a tent. (Those few who have tried bought a tent!)
- 6. What else is in a campsite?**
  - a. Each campsite has one covered shelter with two picnic tables, a fire ring, a flagpole, a bulletin board, and a drop latrine with two individual stalls.
- 7. Does our unit get a campsite to themselves?**
  - a. Because of typically high enrollment, most units share a campsite with another unit.
- 8. How is unit placement decided?**
  - a. The commissioning staff sets camp the week before you arrive. The largest units are placed first and then we fill in as needed.
- 9. What if we have requested a specific site?**
  - a. The commissioners make every effort to accommodate your request. We cannot promise, but we try.
- 10. Are some campsites better than others?**
  - a. Each campsite has its own special quality. Some closer to the parade field and program areas require climbing a set of steps to get there. Some farther away along the river road have the natural noise machine of the creek which makes for most excellent sleeping. Some have more tree canopy while another has a great view of the sunrise.

**11. How do we find out our campsite assignment?**

- a. We will email the campsite set sheet the Thursday night of the week before you arrive to the primary contact in your account.

**12. How spread out is camp?**

- a. All campsites will require a bit of walking. The farthest campsites are a 10-15 minute walk to the parade field. The closest campsites include a flight of stairs to get to them.

**13. Why can't we drive our trailers into camp on Sunday?**

- a. Those unfamiliar with the layout of camp can get caught in a bind quickly. We pull your trailers in and set them in the best spot for that campsite. You can pull them out when you leave.

**14. How far away is the High Adventure Base?**

- a. You pass the high adventure base on the left as you drive into camp about ½ mile before the CDB sign. Scouts may not walk back and forth between the two locations.

**15. Where is Boonesboro?**

- a. Boonesboro is located on base camp property almost directly above the campfire ring.

**16. Where are the bathrooms in camp?**

- a. For campers, in all situations except one (the under 18 male bathroom behind the pavilion) all bathroom facilities are individual stalls. There are drop latrines at every campsite. There is a building of flush toilets above the Green shower house. There are porta-potties scattered around the program areas of camp. There are 2 bathrooms on the back side of the administration building for females. There are bathrooms in the dining hall for adults. Nunc Keewanis has handicapped accessible facilities.

**17. What about the showers?**

- a. There are three shower houses – one at Arrowhead (shared with Boonesboro Village), and the other two located in central areas of the campsites. Each shower is an individual stall with a locking door. Campers enter fully dressed and exit fully dressed.

**18. How will COVID affect bathroom use?**

- a. Cleaning matters in any camp season, but now more than ever. When you leave any facility, please follow the posted directions to make sure you take all your germs with you and kill any that may remain.
